I'm not happy with it either. I'll let them know the importance of getting it to us sooner if possible.

Thanks,

Scott,
I'm not thrilled about a 60-day turnaround on the full cost package. But I'm not sure there's much we can do given how many offices are understaffed these days.

Hi Mark,

Finance is asking for an extension to the 29th to get the full cost package for CFAC. Let me know if you think it's a problem before I concur.

Thanks,

This is to request an extension on the CDR below. We are requesting an extension on the date due for this cost package. There have been unforeseen cost package discrepancies and additional problems/issues with SCORPIOS related to new contract annual allocation/indirect cost rates issued this week, which all effect package and SPIDER production. We estimate completion by 08/29/15, sooner if possible. Please provide your concurrence on this request. Thanks in advance.
